Thank you for your response to my Freedom of Information Act request, F-2006-01358 for documents related to Google, the Internet search engine based in Mountain View, Calif.

You described my request as too broad and narrowed its scope to contracts with Google that were originated by the CIA.

I would prefer a broader search. I request that material also originating from Google be included.

I also ask that any communication between the CIA and Google about any contracts, if they exist, be included.

Hopefully you can accommodate my request.

Thank You

Verne Kopytoff
